

CS 337 – Spring 2014

Quiz 2

===== Time =====

Normal time allowed: 15 minutes

===== Instructions =====

You are to style the HTML page available on Canvas (possibly downloaded ahead of time) by creating a CSS file that is linked to the HTML page.

Do NOT use in-page styling.

You are allowed to use an editor (any editor) and a browser (any browser).

You are NOT allowed to browse to any site other than the page you are working on.

You will NOT communicate with anyone inside or outside of class.

You may use notes.

You may use your own laptop.

===== Turn in =====

Submit a single CSS file via Canvas under Quiz 2. The CSS file should be named:

yourLastName_quiz2.css

Also take a screenshot of your solution and submit it.

===== Web page to reproduce =====
